CONTENTS Volume 57 1999

Volume 57 No. 1

Obituary of Dr. Kenneth Eskins
M.F. Bradshaw **1**

Improvement of rice callus regeneration in the presence of NaCl
S. Lutts, J.M. Kinet, J. Bouharmont **3–11**

Somatic embryogenesis and plant regeneration in myrtle (Myrtaceae)
J.M. Canhoto, M.L. Lopes, G.S. Cruz **13–21**

In vitro* callus induction and regeneration studies in *Withania somnifera
G. Rani, I.S. Grover **23–27**

Relationship between production of carrot somatic embryos and dissolved oxygen concentration in liquid culture
T. Shimazu, K. Kurata **29–38**

Glucotropaeolin and myrosinase production in hairy root cultures of *Tropaeolum majus*
M. Wielanek, H. Urbanek **39–45**

Development and germination of American chestnut somatic embryos
Z. Xing, W.A. Powell, C.A. Maynard **47–55**

Research notes

Micropropagation of juvenile sycamore maple via adventitious shoot formation by use of thidiazuron
E. Wilhelm **57–60**

Transformation of a CAM plant, the facultative halophyte *Mesembryanthemum crystallinum* by *Agrobacterium tumefaciens*
K. Ishimaru **61–63**

In vitro* organogenesis of *Polypodium cambricum
A.M. Bertrand, M.A. Albuerne, H. Fernández, A. González, R. Sánchez-Tamés **65–69**

***In vitro* propagation of *Ancistrocladus abbreviatus* Airy Shaw (Ancistrocladaceae)**
G. Bringmann, H. Rischer, J. Schlauer, L. Aké Assi **71–73**

Agrobacterium tumefaciens*-mediated transformation of *Mentha spicata* and *Mentha arvensis
F. Diemer, J.C. Caissard, S. Moja, F. Jullien **75–78**

Volume 57 No. 2

Microspore embryogenesis of high *sn*-2 erucic acid *Brassica oleracea* germplasm
A.M.R. Ferrie, D.C. Taylor, S.L. MacKenzie, W.A. Keller **79–84**

Improved embryogenesis from anther culture and plant regeneration in timothy
Y.-D. Guo, P. Sewón, S. Pulli **85–93**

Photoautotrophic shoot and root development for triploid melon
J. Adelberg, K. Fujiwara, C. Kirdmanee, T. Kozai **95–104**

***In vitro* propagation of *Gladiolus hybridus* Hort.: Synergistic effect of heat shock and sucrose on morphogenesis**
A. Kumar, A. Sood, L.M.S. Palni, A.K. Gupta **105–112**

Analysis of somaclonal variation through tissue culture and chromosomal localization of rDNA sites by fluorescent *in situ* hybridization in wild *Allium tuberosum* and a regenerated variant
G.-S. Do, B.-B. Seo, J.-M. Ko, S.-H. Lee, J.-H. Pak, I.-S. Kim, S.-D. Song **113–119**

Cold pretreatment to enhance green plant regeneration from rye anther culture
S. Immonen, H. Anttila **121–127**

Effect of low doses of gamma irradiation on *in vitro* growth of grapevine
T. Charbaji, I. Nabulsi **129–132**

Rapid multiplication of Jojoba seedlings by *in vitro* culture
P.A. Roussos, A. Tolia-Marioli, C.A. Pontikis, D. Kotsias **133–137**

Research notes

Carbon metabolism in *in vitro* cultures of date palm: the role of carboxylases (PEPC and RubisCO)
R. Masmoudi, A. Rival, A. Nato, D. Lavergne, N. Drira, G. Ducreux **139–143**

Influence of stock plant pretreatment on gynogenic embryo induction from flower buds of onion
I.J. Puddephat, H.T. Robinson, B.M. Smith, J. Lynn **145–148**

Micropropagation of lemon balm
A. Mészáros, A. Bellon, E. Pintér, G. Horváth **149–152**

Wheat regenerated from scutellum callus as a source of material for transformation
A. Harvey, L. Moisan, S. Lindup, D. Lonsdale **153–156**

Volume 57 No. 3

Ri-mediated transformation of *Artemisia annua* with a recombinant farnesyl diphosphate synthase gene for artemisinin production
D.-H. Chen, C.-J. Liu, H.-C. Ye, G.-F. Li, B.-Y. Liu, Y.-L. Meng, X.-Y. Chen **157–162**

Sucrose metabolism and indoleglucosinolate production of immobilized horseradish cells
J.P. Mevy, J. Rabier, A. Quinsac, D. Ribaillier **163–171**

Induction and characterization of *in vitro* corms of diploid-taro
S.P. Zhou, Y.K. He, S.J. Li **173–178**

Variations in the morphology of rice plants regenerated from protoplasts using different culture procedures
S.-H. Lee, Y.G. Shon, C.Y. Kim, H.J. Chun, Y.H. Cheong, Z.H. Kim, Z.R. Choe, Y.J. Choi, M.J. Cho **179–187**

Cytoplasmic-nuclear interaction and medium effect for protoplast culture in sunflower
A.R. Bolandi, M. Branchard, G. Alibert, H. Serieys, A. Sarrafi **189–193**

Response of flax genotypes to doubled haploid production
Y. Chen, E. Kenaschuk, P. Dribnenki **195–198**

Improvement of plant regeneration from long-term cultured calluses of Taipei 309, a model rice variety in *in vitro* studies
Y.-S. Yang, Y.-D. Zheng, Y.-L. Chen, Y.-Y. Jian **199–206**

Optimisation of procedures for microprojectile bombardment of microspore-derived embryos in wheat
H.M. Ingram, J.B. Power, K.C. Lowe, M.R. Davey **207–210**

Research notes

***In vitro* shoot-tip grafting improves recovery of cotton plants from culture**
J. Luo, J.H. Gould **211–213**

Anther culture and chromosome reduction in wheat × *Thinopyrum* wide crosses
H.C. Sharma, O. Benlhabib, H.W. Ohm **215–218**

Transgenic grapefruit plants obtained by *Agrobacterium tumefaciens*-mediated transformation
D. Luth, G. Moore **219–222**

Improvement of micropropagation of *Genista monosperma* Lam. by abscisic acid treatment
B. Ruffoni, M. Rabaglio, L. Semeria, A. Allavena **223–225**

Instructions for authors **227–231**

Author index **233**

Contents Volume 57 **235–237**
